SAFE BUY

Metal Shiba Inu is the ultimate superhero inspired by the Shiba meme. The idea is to then create a paper version and promote it at the most famous comic book international fairs (such as Lucca Comics). This will benefit not only the comic itself but also the token and community built around it.

Following the analyzes carried out in the past few days, we have noticed a great safety in this project. Indeed, the contract is not exposed to high risks, but only to small problems, such as the presence of functions that allow the owner to exclude some wallets from taxes. Furthermore, the creators did KYC with us and above all they were willing to correct all the problems we had reported to them. Nevertheless, make your requests. In fact, this document in no way represents financial advice. We advise you to consult the links on the previous pages to get more information about the project
